Per my email below, just saw that the timeline was attached to the meeting invite. I don't see an entry for a regulatory crosswalk- is this something that has come up in prior discussions?

Hi Kathy,

Ex. 5 Attorney Client (AC) and thanks for circulating as I wasn't able to join this call. I see there's an item with a question mark for EPA review of NE's draft timetable by May 1. Is this something that we have on hand?

Thanks!

Thanks Kristin – COVID may or may not affect the schedule, currently no. The trainings are scheduled for August in R7 at this time and they think they will be able to do them.

RE consulting with the Corps. I anticipate as this progresses the state, EPA and the Corps will all be talking at the regional level. We don't necessarily need to be in on those. There is no formal coordination that we are obligated to do with the services or the Corps prior to receiving a package requesting to assume. However, practically speaking there are often ongoing discussions as things are developed.

Hope this helps. - Kathy

Hi Kathy,

I don't have any specific edits to the timeline, just a few questions.

1. Will COVID-19 impact this timeline, or is NE able to move forward as planned? For example, are they able to do their training remotely?
2. Will we confer with the Corps? I haven't worked on other 404 assumption efforts (besides this and MN), so I don't know if that's a standard step.

Thanks.

Hi my notes from today's call with NE and R7. If you can in the next two weeks send me any comments on the attached timeline (e.g., add in more time here, EPA and Corps MOAs should be signed closer to program request submittal, should be sure to actively engage the tribes etc) that would be great. I'll combine comments and send forward to R7.

Thanks, Kathy
